

UPDATE

GET ON THE BUS AND **AUTOMATE** **YOUR BATCH UPDATES**

The BUS allows lenders to save files to a specified location and the application will pick them up at a predetermined time and update the associated Encompass files accordingly.

Features Include:

- No specs or formatting
- No GUIDS required, just the loan number
- Log files documenting success or errors
- Control access to the application by controlling access to the sweep location (e.g. a shared network drive)
- Column headers to list the associated Encompass field id
- Queue up multiple files to be picked up by the BUS
- Files are moved to an archived folder for historical reference
- No need for a user-interface; the BUS is automated
