

CREATE YOUR OWN DROPDOWN MENU WITHIN ENCOMPASS

The Ignite Menu Tool is a fully customizable dropdown menu that resides in your Encompass environment. The menu tool provides users the ability to have quick access to tools, folders, websites, plugins, or executables at their fingertips.

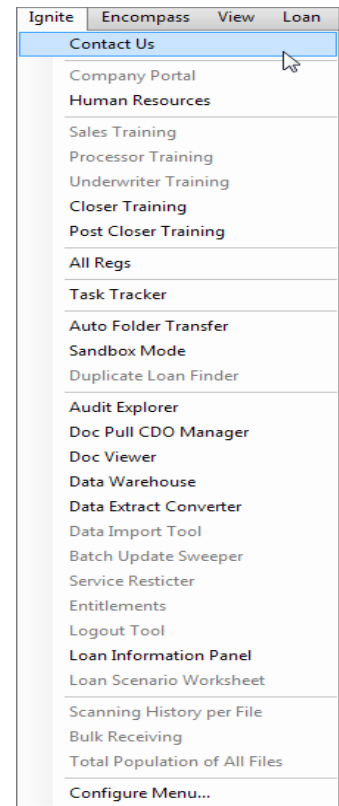

Common use cases include:

- In house help desk and support system
- Training documents and videos
- Company intranet
- Settlement provider links
- Shortcuts to specific forms (e.g Income calc worksheet, exception forms)
- Execute/launch custom applications
- Links to vendor sites (CRM, BI, All Regs, etc.)

The menu tool is configured by the admin and access is granted on a persona basis.

Admin Menu Configuration:

- Set the items you want to appear in the menu
- Determine access to each menu item listed by enabling at the persona level
- Group items together for ease of reference
