

TAKE BACK CONTROL

With the constant evolution of business models, the need to have better administrator controls within Encompass has never been greater. The Encompass Service Restrictor is the administrator tool you've been looking for!

The Ignite Encompass Service Restrictor, can restrict ANY persona from ANY service based on a custom set of conditional statements – all within a simple control panel.

Examples:

- Restrict PPE access upon Clear to Close or Docs *Critical for Auto-Lock users*
- Restrict access to Credit or MI services upon Approval
- Restrict access to Appraisal functions upon Property Inspection Waiver flag
- Restrict access to Documents if Fico < than a specific credit score
- Restrict Loan Officers from AUS upon submission to Processing
- Restrict access to MERS if Closing Date is null

IT'S AS SIMPLE AS 1, 2, 3.

1. Select the Persona(s) you want to restrict
2. Select the Service(s) you want to restrict
3. Build a Condition for the rule

**Conditions are built similar to standard Encompass business rule logic using parenthesis, and/or statements referencing Encompass field IDs*
