

## ARE YOU SICK OF FEELING **TRAPPED WITHIN ENCOMPASS** DUE TO RULES AND RESTRICTIONS?

The Ignite Sandbox Tool provides the Encompass user the ability to enter a loan in READ ONLY status & provides the user the ability to “play” around without exposure. The Sandbox Tool allows the user to make changes to the loan file to run various scenarios without having the ability to save any changes. This Sandbox Tool ensures that changes to loan data are able to be made without effecting any of the loan attributes. The Sandbox Tool gives a user the flexibility to revise and run ‘what if’ scenarios in the loan file without the fear of saving unwanted changes.

### Examples:

- Use for Counteroffer issuance
- Use for Change of Circumstance request
- Use for accurate calculation of loan options
- Provides greater controls for system admins to restrict fields knowing that Sandbox provides an alternative to the end user.
