

MANAGE YOUR PIPELINE AND SAVE TIME.

See your tasks without entering a loan file!

The Ignite TST allows a user to quickly reference what ‘general’ items are outstanding on a loan – without ever having to enter the file and by “general” we mean items needed on MOST transactions. For Example:

- Have my verifications all been completed?
- Has title been ordered and cleared?
- Was my CD sent?

HIGHLIGHTS INCLUDE:

- Access simply by right clicking a loan in the pipeline and selecting the TST
- Tasks will be presented to the user for quick and efficient reference
- Sort by open vs completed tasks
- Admins can customize items for tracking
- TST window can remain open in a loan file while user reconciles open items
